The Rising Sun

The morning sun illuminates the land, radiating a warm and glistening light

It is the rising sun, the bright and shining golden sun

Plants and flowers dancing in the warm breeze, birds flying together in unison
Let us stand shoulder to shoulder
Let us unite hand in hand, la la la la la

1. Joyfully overcoming our worries, embracing hope as we open up new horizons

    This is our vow to steadily march forward, courageously undefeated by hardships

2. The delightful morning breeze welcomes us, as we advance boldly step by step.

    Let us gather happily and harmoniously, you and I, to learn and grow together, building bonds of friendship

We are the rising sun (x2)
Breaking through the dawn, shining brilliantly
Filled with courage and boundless hope, illuminating the future

(Repeat*)
The youthful sun

Ohh~~~~ The sun (x3)
